

COVID-19 UPDATE

Monday, April 19, 2021

The Saskatchewan Health Authority (SHA) has declared a COVID-19 outbreak at RJC High School and is recommending that all people present on campus beginning Monday, April 12 be tested as soon as possible. At this point there has been no evidence of variants of concern present. We ask all guests to remain off campus at this time.

All RJC students are considered close contacts to a known COVID-19 positive case and need to isolate until end of date April 29 unless otherwise directed by the SHA. RJC High School will move to remote learning beginning Monday, April 19 for at least two weeks.

We have arranged a mobile testing unit to be on campus for students and staff on Monday, April 19, but anyone can receive a test at any time by calling 811.

Thank you for your support and understanding as we continue to monitor this situation closely in an effort to keep our students, staff and community safe.

Feel free to contact the school at (306) 232-4222 if you have any questions or concerns.

Sincerely,

Ryan
